

# PERMIT FACTS

Your source for all construction industry information, leads, prospects and news!

## Get Complete Commercial & Residential Permits!

Permit Facts is a must have for those companies building material suppliers, sub-contractors, service, financial and real estate—that need accurate, timely data on all construction activity.

Published weekly, Permit Facts informs you of who is building what, where and of what size along with many other important details about the project including: builder/contractor name, address and phone number, project/subdivision name, address, size, value, description and legal information. Additionally, new or first time contractors are highlighted each week.

Permit Facts reports on all new structures as well as additions, renovations, and interior finish activity in both the commercial and residential construction markets.

Timely, accurate and comprehensive, Permit Facts has the most complete coverage of the residential and commercial sector available.

Permit Facts reports are extremely user friendly—published in a unique “fast-read” format, sorted by county and alphabetized by builder name. Each report includes up-to-date fresh information on projects permitted the week before. Electronic delivery and customization of reports are available.

### Hear What Our Customers Say...

“DEC International’s market intelligence provides accurate and timely construction activity for new business opportunities. In today’s market it is vitally important to know the weekly permit activity for sales and forecasting. We rely on it for an important element of our new business and market research”

- Bert Bowden  
Robert Bowden Inc.
